CURRICULUM VITAE – MARTIN JOSEF CERONIO

SYNOPSIS

I am a technology-driven individual. I thrive on technical challenges, and attaining new technical and programming skills. I am extremely resourceful when it comes to problem analysis and resolution, and enjoy information sharing. My first love is software development; I have an extensive history in SAP ABAP development, starting in 1997, although my experience encompasses other languages including Java. This has caused me to become very specialized in my field, while at the same time building a broad technological skills base.
